

Announcement and Call for Papers

The 2012 International Conference on Advances in Wind and Structures AWAS'12

26-30 August 2012, COEX, Seoul, Korea

**Within the 2012 World Congress on
Advances in Civil, Environmental, and Materials Research (ACEM'12)**

Organized by: Korea Advanced Institute of Science & Technology(KAIST)

*Co- Chairs: Chang-Koon Choi (KAIST, Korea)
John D. Holmes (JDH Consulting, Australia)*

Important Dates

| | |
|-----------------------|---------------------------------|
| <i>March 31, 2012</i> | Submission of abstracts |
| <i>May 15, 2012</i> | Submission of proceeding papers |
| <i>July 15, 2012</i> | Last day for pre-registration |

Themes

Topics will include (but not limited to) :

- Codification
- Computational Wind Engineering(CWE)
- Field Measurements
- Human Comfort Issues
- Static & Dynamic Behaviors of Structures under Wind Loads
- Tall structures, Long span structures & Cables
- Wind Damage Assessment
- Wind Energy
- Wind Loads on Structural Systems
- Wind-Structure Interactions
- Wind Tunnel Modeling & Test
- Other Wind-Structure Related Topics

Session organizers are invited. Those interested in organizing a session at AWAS'12 should inquire to the Conference Secretariat for more information

All correspondence should be addressed to :
Secretariat ACEM'12
Dept. of Civil & Environmental Engineering
Korea Advanced Institute of Science & Technology
Daejeon 305-701, Korea
